PROFILE

Second-year Computer Science student at Newcastle University with a first-year average above 80%. Strong in C, Python and Java. I care about both how software works and how it feels to use, with a strong interest in human-computer interaction and characterful, hand-drawn interface design. Currently starting an online multiplayer party game with my own hand-drawn art. Looking for a year in industry in a software engineering team where I can contribute to production code and learn from experienced engineers.

EDUCATION

Newcastle University — BSc Computer Science

2025 – 2029

- First-year average: **80%+** (First Class)
- Relevant modules: Security Programming, Algorithms, Networks
- Degree includes a 12-month industrial placement year (2027–28)

PROJECTS

Personal portfolio website (AlfieOS)

HTML · CSS · JavaScript

- Hand-built, framework-free site styled as a notebook, starring my own hand-drawn character, animated in JavaScript
- Includes a working in-browser terminal (ls, cat, man, ping) and data-driven project pages; hosted on GitHub Pages

Pen Golf: hand-drawn online party game In progress

JavaScript · WebSockets · Node.js

- Multiplayer mini golf on notebook pages: players join with a room code and sabotage each hole with traps
- All characters and scenes drawn by hand on paper, then scanned into black-and-white sprites

EXPERIENCE

TUBR — Work Experience

1 week

AI & predictive-analytics startup, Sheffield

- Week of work experience at a machine-learning startup building demand-forecasting software for hospitality businesses

TECHNICAL SKILLS

Languages	C, Python, Java, HTML, CSS (strong) · SQL
Concepts	Algorithms & data structures, networking (TCP/UDP, sockets), secure programming
Tools	Git & GitHub, Linux, VS Code
Interests	Human-computer interaction (HCI), interface design, aesthetic web design, hand-drawn illustration
