PROFILE

Second-year Computer Science student at Newcastle University with a first-year average above 80%. Strong in C, Python and Java. I care about both how software works and how it feels to use: I'm building a real-time multiplayer game server in C, and I have a strong interest in human-computer interaction and characterful, hand-drawn interface design. Looking for a year in industry in a software engineering team where I can contribute to production code and learn from experienced engineers.

EDUCATION

Newcastle University — BSc Computer Science 2025 – 2029

- First-year average: **80%+** (First Class)
- Relevant modules: Security Programming, Algorithms, Networks
- Degree includes a 12-month industrial placement year (2027–28)

PROJECTS

Real-time multiplayer game server In progress — C · UDP · Linux

- Authoritative game server in C communicating over UDP with a custom binary packet format
- Fixed-timestep simulation with client-side prediction, server reconciliation and lag compensation
- Applies concepts from my Networks module to a latency-sensitive, real-world problem

Hobby x86 operating system Planned — C · x86 Assembly · QEMU

- Kernel written from scratch: interrupt handling, keyboard driver, paging and a kernel heap
- Pre-emptive round-robin scheduler and a simple interactive shell

Personal portfolio website — HTML · CSS · JavaScript

- Hand-built, framework-free site styled as a notebook, starring my own hand-drawn character, animated in JavaScript
- Includes a working in-browser terminal (ls, cat, man, ping) and data-driven project pages; hosted on GitHub Pages

EXPERIENCE

TUBR — Work Experience 1 week

AI & predictive-analytics startup, Sheffield

- Week of work experience at a machine-learning startup building demand-forecasting software for hospitality businesses

TECHNICAL SKILLS

Languages	C, Python, Java, HTML, CSS (strong) · SQL
Concepts	Algorithms & data structures, networking (TCP/UDP, sockets), secure programming
Tools	Git & GitHub, Linux, VS Code
Interests	Human-computer interaction (HCI), interface design, aesthetic web design, hand-drawn illustration
